Cooperation between RMA and GVNW

Bonn and Nuremberg, 10 February 2025 - The Risk Management & Rating Association e.V. (RMA) and the Gesamtverband der versicherungsnehmenden Wirtschaft e.V. (GVNW) have decided to cooperate.

This cooperation combines the expertise and resources of both organisations to offer added value to their members and the industry. Through joint events, training and publications, GVNW and RMA will support their members in adapting to the ever-changing demands of the market and enhancing their risk management and insurance management skills.

‘We are thrilled to enter into this partnership with the GVNW’, Michael Jahn-Kozma, Chairman of the Board of the RMA. ‘Together we can better support our members and help them navigate an increasingly complex environment.’

‘Through this new cooperation, we are bringing together the risk management of insurable risks and enterprise risk management. We are thus paving the way for successful and sustainable cooperation and breaking down silos’, Dr Patrick Fiedler, CEO of GVNW.

The partnership will be underpinned by a series of initiatives and projects that will be presented in the coming months. We will start with mutual presentation slots at the associations' annual events, the 19th RMA Risk Management Conference, 12 & 13 May 2025, at the Kultur- und Kongresszentrum Liederhalle Stuttgart and the GVNW Symposium, 10 - 12 September 2025, at the INFINITY Hotel & Conference Resort Munich
